Triage — pre-test and post-test

8 questions · about 4 minutes each · this measures whether the session worked, not how good anyone is.

STEP 1

Pre-test

Scan BEFORE the session starts

https://forms.gle/wgk3ZGJLLdV5EeEU9

STEP 2

Post-test

Scan AFTER the session ends

https://forms.gle/ScKcYxoRr1MUv8yx9

Same name or code

Use exactly the same on both, so your two scores can be matched.

Order matters

Scanning the post-test early spoils the measurement — it cannot be fixed afterwards.

Answers after

The pre-test shows no answers. The post-test shows your score and every explanation.
